Panduit Wins *College Planning & Management* 2018 New Product Award for Pan-Way[®] Above Floor Raceway

Tinley Park, Illinois – Panduit Pan-Way[®] Above Floor Raceway has been recognized and awarded the 2018 New Product Award for the “Classroom Furniture & Equipment” category by *College Planning & Management*.

The 2018 New Product Award program honors the outstanding product development achievements of manufacturers and suppliers whose products or services are considered particularly noteworthy in helping to improve the learning environment.

Panduit Pan-Way[®] Above Floor Raceway is an inexpensive, durable, easy-to-install alternative method to route cables in an area where there isn't access to core drilling. Above Floor Raceway, which is ADA-compliant, is an ideal low-profile solution for routing network, A/V, and power cables in classrooms, conference rooms, and huddle spaces. Four channels separate low voltage and power cables, while maintaining cable bend radius to ensure network performance. Above Floor Raceway is easy to maintain, tamper-resistant, rated for applications up to 600 volts and constructed with rigid PVC material that is strong enough to withstand daily traffic.

“We are proud and thankful that our new product has been recognized by *College Planning & Management*,” states Mike McGrath, Director, Product Management & Engineering. “The Above Floor Raceway solution was a direct result of listening to our customers and the challenges they face deploying network and power cables in the education field, as well as office work spaces. The product provides an elegant and durable solution that is easy to install when compared to alternate methods.”

The judging panel represented all aspects of the industry and were selected by *College Planning & Management's* editorial staff. Judging criteria included:

- Features
- Innovation
- Quality
- Durability
- Design
- Technical Advances
- Impact on Learning

The 2018 New Product Award Honorees will be featured in the November/December Issue of *College Planning & Management* magazine as well as on www.webCPM.com and www.spaces4learning.com.

About Panduit:

Since 1955, Panduit's culture of curiosity and passion for problem solving have enabled more meaningful connections between companies' business goals and their marketplace success. Panduit creates leading-edge physical, electrical, and network infrastructure solutions for enterprise-wide environments, from the data center to the telecom room, from the desktop to the plant floor. Headquartered in Tinley Park, IL and operating in 112 global locations, Panduit's proven reputation for quality and technology leadership, coupled with a robust partner ecosystem, help support, sustain, and empower business growth in a connected world.
